Blackstone Models – In Stock Items @ 21/10/11

This is the first stock list since we moved all of our stock to its new home in our purpose built stores and have been able to unpack it all and have a count up.

Quantities in a printed list are only accurate at the moment the print button. Zero stock items aren't listed which explains the apparent gaps in the numbering series. As this is type its more accurate than the website which hasn't been updated yet.

Blackstone's trucks aren't listed but we have some of each except the new tank car trucks but we will be getting those.

Paul Martin
